F - is the price of the Financial Proposal under consideration.

The proposals shall then be ranked according to their combined (Sc) technical (St) and financial (Sf) scores using the weights<sup>3</sup> (T = the weight given to the Technical Proposal = 0.80; F = the weight given to the Financial Proposal = 0.20; T + F = 1)

Unless there are exceptional reasons, the financial negotiations will involve neither the remuneration rates for staff nor other proposed unit rates.
- 12.4 Having selected the Service Provider/ Consulting Firm on the basis of, among other things, an evaluation of proposed key professional staff, IOM expects to negotiate a contract on the basis of the experts named in the proposal. Before contract negotiations, IOM shall require assurances that the experts shall be actually available. IOM will not consider substitutions during contract negotiation unless both parties agree that the undue delay in the selection process makes such substitution unavoidable or for reasons such as death or medical incapacity. If this is not the case and if it is established that staff were referred in their proposal without confirming their availability the Service Provider/ Consulting Firm may be disqualified. Any proposed substitution shall have equivalent or better qualifications and experience than the original candidate.
- 12.5 All agreement in the negotiation will then be incorporated in the description of services and form part of the Contract.

## **Section IV. Terms of Reference**

### **a) Background**

The scale of irregular migration towards Europe reached unprecedented levels in 2015, with over 1,000,000 migrants crossing the Mediterranean Sea. During the same time, migrant fatalities have reached levels of a humanitarian emergency, with 3,771 migrants dying during maritime migration in 2015. In order to provide real alternatives and right-based solutions to irregular migration, IOM provides Assisted Voluntary Return and Reintegration (AVRR) services to migrants wanting to return home and without protections concerns in the country of origin. Since 2015, IOM has observed a surge in the number of vulnerable migrants requiring urgent assistance, IOM assisted more than twice as many migrants with AVRR between January and June 2016 as during that period in 2014.

IOM Egypt proposes this project with the objective to contribute to ensuring sustainable rights based solutions for vulnerable migrant transiting through Egypt to Europe. For this purpose, 167 stranded migrants irregularly residing in Egypt will receive rights-based and sustainable AVRR services. Thereby, IOM will ensure that returning migrants have an opportunity to sustainably reintegrate in their communities of origin as an alternative to repeated unsafe or irregular migration. In addition, this project will support the implementation of workshops with the Egyptian Ministry of Interior and other relevant stakeholders to develop standard operating procedures to systematize the provision of AVRR from Egypt.

### **b) Objectives**

The overall objective of the evaluation is to evaluate the project's design, management and implementation whether or not it has achieved intended results by analysing project objectives, results and activities, with considerations to the overall objective of the project. Specific objectives include:

- Evaluate the relevance and validity of the choice of strategies and activities for achieving the project objective;
- Evaluate the project's effectiveness in achieving its objective and project purposes including assessing level of quality the project has achieved;
- Analyze the efficiency in addressing the project objective. Measuring of how economically resources/inputs (funds, expertise, time) are converted into results;
- Analyze the project impact looking at primary and secondary long-term effects produced by the project intervention, directly or indirectly, intended or unintended;
- Analyze the sustainability of the project by looking at the lesson learned, best practices.

### **c) Scope of the Services**

A complete list of evaluation questions and sub-questions will be developed by the evaluator. The following are the initial list of questions the evaluation is expected to respond to.

#### **Relevance**

Are the project activities relevant to project objectives and results?

What were the regional and national specific economic, social and political challenges, and how did the project deal with them?

Have the projects' assumptions been accurate?

Which objectives could be built-on further, and which objectives (or project aspects) have not been met, yet are still relevant for the target country because they are relevant to the needs of the project's key stakeholders?

## Effectiveness

To what extent did the specific objectives support efforts to ensure sustainable rights based solutions for vulnerable migrant transiting through Egypt to Europe? What factors contributed to the success and/or underachievement of the objective?

Were the target populations, target locations and activities sufficiently well-defined and implemented in order to reach the projects' objectives? If the objectives were not achieved, would other activities have been more effective in reaching the projects' objectives?

What are the main obstacles or barriers that the project has encountered during the implementation of the project? Has the project been successful in addressing these obstacles?

On the basis of the project achievements and challenges encountered, what follow-up actions can be recommended/are considered necessary?

## c. Efficiency

How appropriate are the project designs to achieve project results in the context in which they operate?

How coherent and realistic was the intervention logic based on target country specific needs?

What external socio-economic and political factors affected the implementation of the projects?

How effectively were the project performances and results monitored?

## d. Impact

Are the project documents sufficiently well designed to identify which impact was expected from the project?

What observed changes in attitudes, capacities and institutions etc. can be causally linked to the project's interventions? Are these results, achievements and benefits likely to be durable?

What type of impact did the project have on their beneficiaries and relevant stakeholders?

What do the beneficiaries and other stakeholders perceive to be the impact of the projects?

Can any unintended or unexpected positive or negative effects be observed as a consequence of the projects' interventions?

## Sustainability

To what extent are the projects' results likely to be sustained in the long-term?

Is the project supported by local institutions and well integrated with social, political and cultural conditions in the target country?

Are the project activities replicable, including by national partners?

What measures can be embedded in future similar projects to improve sustainability?

How successful has the project been in leveraging non-project resources?

Identify the most important results, lessons learned, or best practices that should be considered in future AVRRE programs and what should be avoided in order to improve implementation (a recommendations/next steps section).

This indemnity shall survive the expiration or termination of this Agreement.

#### **16. Waiver**

Failure by either Party to insist in any one or more instances on a strict performance of any of the provisions of this Agreement shall not constitute a waiver or relinquishment of the right to enforce the provisions of this Agreement in future instances, but this right shall continue and remain in full force and effect.
